

The Scorecard

Scorecards are divided into a number of areas that must be completed to ensure the scorecards are correct before being submitted.

- Be consistent by scoring each archer in the same order to prevent mistakes.
- Write down the arrow values from highest to lowest, each in its own box.
- Mark arrows that hit off the paper target as "M" for missed.
- Never erase an arrow's score. Instead draw a diagonal line through the mistake and have all archers on the butt initial the change. You are allowed to correct mistakes that you make during addition.
- Do your own math as you go. Never copy the other scorer's math, because it can lead to mistakes.
- ***Before pulling arrows, verify your results with the other scorer.***
- Check your math at the end of the round, tally all 10's and 9's, and be sure to sign your name legibly.
- Scorecards can be scanned and forwarded via email to shannonsweetland@nlesd.ca or faxed to 709.634.8969 **Attn: Shannon Sweetland Archery Mailmatch NL.**
